

VENTEC RS 400

COMPACT RAIN SENSOR

24 HR NEXT DAY DESPATCH

400 SERIES COMPATIBLE

4A - 20A OPTIONS

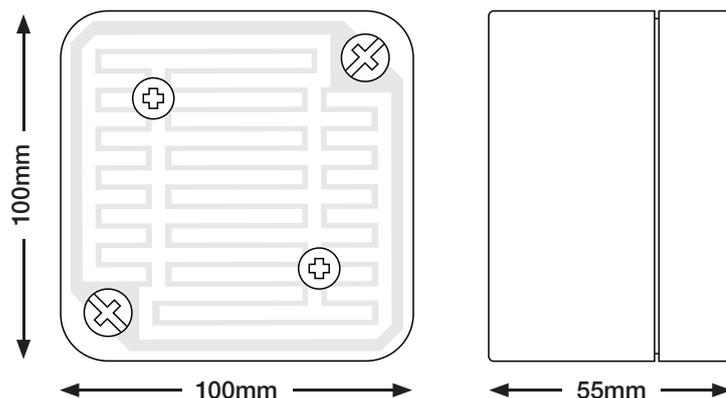

Product Summary

For direct control of smoke ventilation units and control units. In the event of rain, the Ventec RS 400 rain sensor sends the signal for automatic closing. It is possible to disconnect this sensor acting on the ON/OFF switch on the front of the control panel. A heating element prevents dew formation on the surface.

Product Specifications

- DIP switch for parameter setting.
- Automatic CLOSE in case of power failure (adjustable).
- The rain sensor can be activated by a change-over-contact.
- Measurement principle for rain: conductivity measurement on the heated sensor surface.
- Rain drop out delay is adjustable.

Dimensions

Technical Data

	STANDARD ITEM - IN STOCK
Zones	1
Current	24v DC
Size	80mm x 80mm x 55mm (W x H x D)
Weight	0.3kg
Circuit Output	1x potential free change over contact, 60v / 2 amps
Setting For Monitoring	Off/On
IP Rating	IP65
Delivery	Includes sensor with mounting brackets
FP Wiring Type	FP PLUS
Core Type	4-Core + Earth
